 kasireddy@gmail.com

Profile

Computer Science graduate with strong knowledge of Data Structures and Algorithms, Object-Oriented Programming (OOP), and Web Development. Proficient in Java with strong software development and problem-solving skills. Seeking an entry-level Software Developer role to apply my technical skills in real-world applications.

Education

2021 – 2025	B.Tech, Computer Science,, <i>Matrusri, GPA: 7.0</i>
2019 – 2021	Intermediate, <i>Narayana Junior College, Percentage: 93.4</i>
2019	SSC, <i>Vignan Integrated High School, GPA: 9.7</i>

Skills

Programming Languages: Java

Databases: MySQL

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, Linux (basic)

Projects

Secure Routing Algorithm for Mobile Networks

- Developed a secure and energy-efficient routing protocol using BFOA and fuzzy clustering for Mobile Ad Hoc Networks (MANETs).
- Enhanced network performance by reducing latency and improving throughput while preventing routing attacks
- Technologies: Java, JSP, Servlets, SQL

Personalized Book Recommendation System

- Built a recommendation system using Python and TensorFlow based on user preferences and reading history
- Applied data preprocessing and model training to improve recommendation accuracy

Certifications & Activities

- Programming with Java-NPTEL
- Introduction to Cybersecurity, Introduction to Networks-Cisco
- Salesforce Virtual Internship
- HackerRank Silver Badge in Java and SQL
- Solved 75+ problems on LeetCode (DSA)
